SUMMARY

Web3 Developer specializing in smart contract engineering and decentralized application (dApp) development. Experienced in building full-stack Web3 applications using Solidity, Next.js, Wagmi, Viem, and modern blockchain tooling. Strong understanding of EVM networks, token standards, cryptographic primitives, gas optimization, and Account Abstraction (ERC-4337). Previous experience in Web3 business roles provides a strong foundation in ecosystem strategy, product thinking, and blockchain market dynamics.

WORK EXPERIENCE

Web3 Developer — Independent / Freelance **Feb 2022 - Present**

- Built and deployed smart contracts (tokens, NFTs, staking, minting, claim flow).
- Developed full-stack dApps with wallet integrations, AA flows, on-chain interactions.
- Integrated IPFS for NFT metadata and decentralized storage.
- Created Farcaster Frames with on-chain actions (mint, claim, interactions).

Business Development — NotMushCoin **Oct 2024 - Mar 2025**

- Identify and prospect potential clients, including cryptocurrency exchanges, token issuers, hedge funds, and institutional investors, to expand the agency's client base.
- Secured strategic partnerships with key industry players to expand market reach and enhance brand presence.
- Developed and implemented growth strategies to drive user acquisition and increase client engagement.

Chief Technology Officer — Permata Citra Nusantara **Apr 2021 - Jan 2022**

- Defined and executed the company's roadmap to align with overall business objectives and long-term growth strategies.
- Led cross-functional teams in the development and deployment of scalable software solutions, ensuring high performance and reliability.
- Implemented best practices in software engineering, security protocols, and system architecture to enhance operational efficiency.

EDUCATION

Bachelor of Business Administration **Sep 2019 - Feb 2023**

International Women University

- GPA 3.6 / 4.0

ADDITIONAL INFORMATION

- **Technical Skills:** Solidity, Hardhat, Foundry, OpenZeppelin, Next.js, React, Tailwind, Framer Motion, Wagmi, Viem, ERC-20, ERC-721, ERC-1155, ERC-4337, Infura, Alchemy, IPFS, Supabase, Node.js, REST API, Git, CI/CD
- **Languages:** Indonesian, English.
- **Awards/Activities:** Awarded in the National Robotics Competition for excellence in Internet of Things and innovation.
